

Meritor Parts

Meritor Parts - The Meritor Business is a leading global dealer established upon one hundred years of custom of quality and service. Meritor focuses on integrated systems along with several modules and parts to the original equipment makers and aftermarket equipment in the transportation and industrial sectors.

Meritor prides itself in the company's distinctive energy and thinks that this particular energy contributes to their competitive advantage in the worldwide operations. The business values their customers and wants to ensure their success while anticipating their different requirements. Meritor begins with a tradition which values diversity of people and their broad thought processes. Operating in 19 countries and employing more than eleven thousand two hundred individuals, Meritor encourages innovation and collaboration among a team of knowledgeable experts.

By only hiring future focused employees, Meritor strongly thinks these top-caliber individuals will be able to rapidly get used to to changing environments and demonstrate the performance and commitment needed so as to achieve results in the competitive materials handling market. The business empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor provides all their staff various possibilities for personal and professional development.

The Advanced Engineering team is on the forefront of components and system engineering. This includes drivelines, axles, braking and suspension systems utilized for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is even responsible for supporting the needs of all their worldwide engineering workers.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their aftermarket distribution facilities and production plants that are located all around the world in 19 countries and in 5 different continents.

The supplier development network is particularly situated to support new business growth. Regional teams are supported by global quality systems, centralized specialties and initiatives in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making within each and every aspect of the trade. The DFSS or also known as Design for Six Sigma ensures product reliability in each region. The team is even included transactional Green Belts who make use of Six Sigma tools to business techniques and apply lean methods.
